NEW HOME WARRANTIES

10 Year Major Structural Defect Full Coverage Warranty

Knowing that one single warranty format may not fit every Builder's needs, HOME strives to provide you with options – our “Menu of Choices.” Historically, the standard ten year Major Structural Defect (MSD) warranty is what this industry has provided and is the coverage Builders have become accustomed to over the years. Ten year warranties have been an effective way to deal with a variety of issues including customer service, marketing, and mandated new home legislation.

- 10 Years of Coverage on Major Structural Components.
- Effective dispute resolution system includes free mediation and binding arbitration if needed.
- Builder liability is limited to 2 years.

10 Year Enhanced Coverage Warranty

The Designated Structural Element (DSE) variety of warranty is an innovative approach to coverage which uses specific measurements and tolerance limits to determine the ten year structural coverage.

EXTENDED WARRANTY

Key Estates Warranty is a HOME of Texas affiliated program created to offer a line of economically-priced warranty products for appliances and mechanical systems on resale homes.

Key Estates Warranty

Key Estates Warranty is offered through Real Estate Professionals and is an extended warranty for certified appliances and mechanical systems for resale homes. Before certifying warranty coverage on appliances or systems, Key Estates Warranty Professionals review photos/videos of the items to be covered. We're looking for potential trouble spots and searching for recalls that could be helpful to know. More components are covered as "standard" than most of our competitors' products making Key Estates Warranty excellent coverage for any prospective homebuyer.

- **Important to Note:** Key Estates allows the homeowner to choose their own repair provider.
- **Term Options:** 1 or 2 year warranty terms
- **Coverage:** Select from different combinations of appliances, mechanical systems, major structural components and structural inspection options. See the Key Estates Certified Warranty Coverage book for complete details. If the Structural Coverage is selected, then the Structural Inspection must also be selected.
- **Structural Coverage** on load-bearing components is available in certain areas of Texas. If available, a structural inspection performed by a licensed professional engineer is required.
- **Revenue:** Real Estate Professionals may earn risk-free income by offering a Key Estates Warranty on their listings.

**Availability for Key Estates Warranty:* Key Estates does not currently offer the structural coverage option in certain counties in Texas that are designated as active soil areas. Call for availability. However, the appliance and mechanical systems option is available.
