

SPECIALTY WARRANTIES

RWC offers several “specialty” programs for Builders involved in construction of detached garages, commercial buildings, and conversions (commercial space remodeled into residential space). Opportunities abound in these areas to generate additional revenue for a qualified builder. Set yourself apart from the competition in bid situations by including a warranty designed specifically for your type of project.

Builders often incorporate “specialty” types of construction in order to create new revenue streams, keep employees busy and “wait out” any periodic down turn. RWC offers warranties for builders working on commercial projects or even building detached garages. In addition, there are times when the traditional 10 year warranty is not a good fit, either for the builder or the project. For those unique times, RWC’s affiliate, Residential Structural Warranty offers 1-year renewable coverage.

SPECIALTY WARRANTIES
