NEW HOME WARRANTIES

Knowing that one single warranty format may not fit every Builder's needs, RWC strives to provide you with options – our “Menu of Choices.” Historically, the standard ten year Major Structural Defect (MSD) warranty is what this industry has provided and is the coverage Builders are accustomed to using. Ten year warranties have been an effective way to deal with a variety of issues including customer service, marketing, and mandated new home legislation.

EXTENDED WARRANTIES

Key Estates Warranty and Platinum Advantage are other RWC affiliated programs which were created to offer a line of economically-priced warranty products for appliances and mechanical systems on both new and used homes. Two distinct programs exist:

Key Estates Warranty

Key Estates Warranty is offered through Real Estate Professionals and is an extended warranty for certified appliances and mechanical systems for resale homes. Before certifying warranty coverage on appliances or systems, Key Estates Warranty Professionals review photos/videos of the items to be covered. We're looking for potential trouble spots and searching for recalls that could be helpful to know. Unique to Key Estates Warranty is the opportunity to include economically-priced coverage on true major structural components of an existing home in addition to the traditional appliances and systems coverage. A structural inspection performed by a licensed professional engineer is required. More components are covered as "standard" than most of our competitors' products. Together, these components make Key Estates Warranty excellent coverage for any prospective homebuyer.

- **Important to Note:** Key Estates allows the homeowner to choose their own repair provider.
- **Term Options:** 1 or 2 year warranty terms
- **Coverage:** Select from different combinations of appliances, mechanical systems, major structural components and structural inspection options. See the Key Estates Certified Warranty Coverage book for complete details. If the Structural Coverage is selected, then the Structural Inspection must also be selected.
- **Revenue:** Real Estate Professionals may earn risk-free income by offering a Key Estates Warranty on their listings.

Platinum Advantage

Platinum Advantage is offered through Builders and is an extended warranty for appliances and mechanical systems for new site built homes and for new/pre-existing HUD-code homes. Coverage is flexible and homeowners can use the repair provider of their choice to perform service work if needed. If offered in conjunction with an RWC structural warranty, homeowners will receive the most comprehensive warranty package on the market.

- **Term Options:** 2, 3 or 5 year warranty terms
- **Service Fee Options:** \$25, \$50 or \$100 per trade call
- **Coverage:** Most major home appliances and mechanical systems are covered. See the Platinum Advantage Terms and Conditions for complete details.
- **Revenue:** Builders may earn risk-free income by offering Platinum Advantage on their homes.

WPMIC Maintains Two Decades of Successive “Excellent” Ratings

Since 2001, Western Pacific Mutual Insurance Company, a Risk Retention Group (WPMIC) has maintained an A.M. Best rating of “A- (Excellent)”. WPMIC is the insurer for new home warranties provided by RWC & MHWC and for general liability insurance provided to home builders through the RWC Insurance Advantage (RIA) program.

A.M. Best is a full-service credit rating organization dedicated to serving the financial services industries, focusing on the insurance sector. The “Excellent” rating is ascribed by A.M. Best to companies that, in their opinion, “have an excellent ability to meet ongoing obligations.”

WPMIC is domiciled in Colorado and has successfully maintained its “A- (Excellent)” rating by A.M. Best based on its performance to date. The rating reflects the risk retention group’s sound capitalization, historically favorable operating performance, positive cash flow position, and conservative reserve levels. Additionally, the rating recognizes WPMIC’s history of maintaining sufficient capital to support its ongoing obligations and the effective management of its long term exposure to loss.
