# NEW HOME WARRANTIES

#### > 10 Year Major Structural Defect Full Coverage Warranty

Knowing that one single warranty format may not fit every Builder's needs, RWC provides you with options – our "Menu of Choices." Historically, the standard ten year Major Structural Defect (MSD) warranty is what this industry has provided and is the coverage Builders have become accustomed to. Ten year warranties have been an effective way to deal with a variety of issues including customer service, marketing, and mandated new home legislation.

- The "traditional" warranty offered by RWC since 1981.
- Clearly written set of warranty standards to spell out coverage.
- 1 Year of Coverage on Workmanship & Materials.
- 2 Years of Coverage on Selected Portions of Mechanical Systems.
- 10 Years of Coverage on Major Structural Components.
- Effective dispute resolution system includes free mediation and binding arbitration if needed.
- Builder liability is limited to 2 years.
- Option available for Day 1 Structural Coverage for 10 years provided by RWC's Insurer.
- A "Structural Only" version is also available.

#### > Customized State Warranty Program

The Customized State Warranty (CSW) Program is the most unique and specialized warranty program in the industry. Each individual state warranty is crafted to meet that state's statutes regarding new home warranties. For example, statutes in Indiana require that roof systems be warranted by the Builder for 4 years so the RWC Indiana Warranty includes that coverage. In Iowa, the statute of repose is 10 years, so in that state, the warranty term is 10 years.

- Day 1 Structural Coverage provided by RWC's Insurer.
- Clearly written set of warranty standards to spell out coverage.
- Workmanship, Materials and Mechanical Systems are covered for 1 year (unless otherwise mandated by state statute).
- Coverage on Structural Components varies based on state statutes.
- Individual state requirements for coverage are included if applicable.
- Effective dispute resolution system includes free mediation and, if needed, binding arbitration.
- Builder liability is limited to 1 year only (unless otherwise mandated by state statute).

#### > 10 Year Designated Structural Element Warranties

The Designated Structural Element (DSE) variety of warranties is an innovative approach to coverage which uses specific measurements and tolerance limits to determine the ten year structural coverage. Under this format, both "full coverage" and "structural only" programs are available.

- Clearly written set of warranty standards to spell out coverage.
- 1 Year of Coverage on Workmanship and Materials (Full coverage version only).
- 2 Years of Coverage on Selected Portions of Mechanical Systems (Full coverage version only).
- 10 Years of Coverage on Designated Structural Elements (Included in both full and structural only versions).

#### > Key Estates Warranty for Real Estate Professionals - Coverage for Existing/Resale Homes

Key Estates Warranty is offered through *Real Estate Professionals* and is an extended warranty for certified appliances and mechanical systems for resale homes. Before certifying warranty coverage on appliances or systems, Key Estates Warranty Professionals review photos/videos of the items to be covered. We're looking for potential trouble spots and searching for recalls that could be helpful to know. Unique to Key Estates Warranty is the opportunity to include economically-priced coverage on true major structural components of an existing home in addition to the traditional appliances and systems coverage. A structural inspection performed by a licensed professional engineer is required. More components are covered as "standard" than most of our competitors' products. Together, these components make Key Estates Warranty excellent coverage for any prospective homebuyer.

- Important to Note: Key Estates allows the homeowner to choose their own repair provider.
- Term Options: 1 or 2 year warranty terms
- Coverage: Select from different combinations of appliances, mechanical systems, major structural components and structural inspection options. See the Key Estates Certified Warranty Coverage book for complete details. If the Structural Coverage is selected, then the Structural Inspection must also be selected.
- Revenue: Real Estate Professionals may earn risk-free income by offering a Key Estates Warranty on their listings.

Availability for Key Estates Warranty: Key Estates does not currently offer the structural coverage option in Colorado or in certain counties in Texas that are designated as active soil areas. In Texas, call for availability. However, the appliance and mechanical systems option is available in both states.

#### > Key Estates Warranty for Builders - Coverage for New Homes
